This seed has a few sprawling villages including a crop farm, a village with a Minecraft Nether portal, and a waterlogged village with a handy pool of lava perfectly set up for obsidian farming.. Just to the right is a small village steeped in snow with a half-built Nether Portal and plenty of small lava pools to create obsidian.. Perhaps the best bit is youll spawn directly onto a survival island surrounded by ice, so you can mine straight down to get important minerals and resources, too.
